## Task Name: Design Homepage

Details: Create a modern and responsive homepage design.

Period: 01/01/2023 - 01/31/2023

Current State: In Progress

### Task Progress Overview    Filter    Export

Weekly Performance

● Completed   ● In Progress   ● Pending

Hey, has anyone started working on this task?

Yes, I have started working on it. I'm currently halfway through.

Great! Let me know if you need any help.

Sure, thanks!

I have some suggestions for the design part. Can I share them here?

Absolutely, please go ahead.

I think we should use a different color palette for better user experience.

That's a good idea. I'll make the changes accordingly.

Thanks, Charlie!

You're welcome!
